Agenda

Monthly Meeting

North Star Project:

The Need for AAPI Service Providers Under Healthcare/Social Services Reform

Theme: Medicaid Reform has a great impact on community organizations. We anticipate that the new policies will affect the demand for social and health services in mental health and home care services in the future. Will the professional personnel be less and less needed over time? One critic predicts that social and health service organizations lack the resources to handle the increased needs in AAPI communities. How the social and health students/workers advocate themselves and their profession?

Date: 7/20/12 (Friday)
